

Sarah Blikre

Arlington, WA / sarahblikre@gmail.com / (425) 314-9907

Summary

I have 12 years of experience in building fast and responsive WordPress-based websites using custom themes and plugins. I enjoy coming up with creative solutions to problems on the front-end and the back-end. I do my best work when stepping outside my comfort zone and sinking my teeth into something new and unfamiliar.

Experience

Jordan Crown Design

WordPress/Web Developer, Everett, WA

01/2013 - 03/2025

- Took mockup files from the designers and built out complete websites (backend and frontend).
 - Launched approximately 50 WordPress projects. Handled site migration and DNS updates.
 - Created custom blocks for the Gutenberg block editor using React and ACF. Developed a plugin for easier management and creation of custom blocks.
 - Frequently communicated with clients directly to collect project requirements and discuss potential changes, updates, additions, and bug fixes.
 - Increased client satisfaction by proactively suggesting and implementing creative solutions, site performance improvements, and exciting visual updates.
 - Built interactive maps with Google and Esri.
 - Managed Linux and Windows web servers.
-

Skills

Custom WordPress themes and plugins, Translating mockups into fast and functional websites, Responsive web development, Back end: PHP, SQL, and server management, Front end: CSS/SASS and Javascript, Interactive Google and Esri maps, HTML emails, WooCommerce, API integration, SEO best practices

Education

Associate of Technical Arts in Computer Information Systems

Everett Community College, Everett, WA

06/2012
